

REMARKS

Specification

Applicant has preliminarily amended the application to include the priority claim for this application. This information was provided in the Application Data Sheet when the application was originally filed.

Applicant has also amended the specification to correct errors in the specification as filed. Applicant contends that these amendments do not add new matter to the specification and, therefore, are proper clarifying amendments.

Claims

Claims 1-21 are pending. Applicant has made preliminary amendments to claims 1-21 to remove any improper multiple dependencies and to place the claims in proper form under United States law. Applicant contends that the amendments to these claims are not to be considered narrowing amendments.

Applicant respectfully submits that the claims of the application are allowable over the prior art of record. Should the Examiner have any questions regarding this Amendment, the Examiner is invited to contact one of the undersigned attorneys at (312) 704-1890.

Respectfully submitted,

Date: 11/15/07
